### 1. PA-11-134: Lab to Marketplace: Tools for Brain and Behavioral Research

Release Date: 02-25-2011Open Date: 03-05-2011Due Date: 01-08-2014Close Date: 01-08-2014

Research Objectives The National Institutes of Health (NIH) Blueprint for Neuroscience Research is a collaborative effort among the NIH Office of the Director and 15 Institutes and Centers to accelerate the pace of discovery and understanding in neuroscience research (<http://neuroscienceblueprint.nih.gov/>). This FOA is affiliated with the Neuroscience Blueprint, with Institutes and Centers parti ...

### 2. PA-10-175: Advanced Tools and Technologies for Deep Brain Stimulation

Release Date: 04-27-2010Open Date: 07-05-2010Due Date: 05-08-2013Close Date: 05-08-2013

1. Research Objectives The clinical utility of deep brain stimulation (DBS) for the treatment of the debilitating symptoms of motor disorders, including Parkinson's disease and essential tremor has been established. In addition, DBS may offer relief of symptoms in other disorders such as Dystonia, Tourette's Syndrome and Epilepsy. DBS is considered a treatment option for patie ...

### 4. PA-10-149: Bioengineering Nanotechnology Initiative

Release Date: 04-06-2010Open Date: 07-05-2010Due Date: 05-08-2013Close Date: 05-08-2013

1. Research Objectives Nanotechnology is the understanding and control of matter at dimensions between approximately 1 and 100 nanometers, where unique phenomena enable novel applications. Encompassing nanoscale science, engineering, and technology, nanotechnology involves imaging, measuring, modeling, and manipulating matter at this length scale. The purpose of this trans-NIH Funding Opportunit ...

## **6. [PA-10-122: SHIFT Award: Small Businesses Helping Investigators to Fuel the Translation of Scientific Discoveries](#)**

Release Date: 03-05-2011Open Date: 03-05-2011Due Date: 01-08-2013Close Date: 01-08-2013

1. Research Objectives The primary objectives of the SHIFT SBIR initiative are to foster research that is translational in nature and to transform academic scientific discoveries into commercial products and services. A major feature of the SHIFT program includes the opportunity for SBCs to hire skilled academic investigators (e.g., senior postdoctoral fellow, research associate, engineer or fac ...

## **7. [PA-10-123: NIAID Advanced Technology SBIR](#)**

Release Date: 03-05-2010Open Date: 03-05-2010Due Date: 01-08-2013Close Date: 01-08-2013

1. Research Objectives The SBIR program was initiated as a means for government agencies to use small businesses to stimulate technological innovation and help agencies meet their research and development (R&D) needs. An additional provision of the SBIR program is the expected commercialization of the research. Many NIAID supported small business projects require clinical evaluation and F ...

## **9. [PA-10-117: New Approaches to Arrhythmia Detection and Treatment](#)**

Release Date: 03-03-2011Open Date: 03-05-2010Due Date: 01-08-2013Close Date:  
01-08-2013

1. Research Objectives The purpose of this initiative is to improve our ability to detect, prevent, and treat all forms of cardiac arrhythmias. This initiative will encourage small business firms to develop improved diagnostic and therapeutic tools, products, or devices for cardiac arrhythmia monitoring, detection and treatment. Background Cardiac arrhythmias represent a major source ...

### **10. [RFA-HG-10-: Revolutionary Genome Sequencing Technologies – The \\$1000 Genome](#)**

Release Date: 08-27-2010Open Date: 10-01-2010Due Date: 10-18-2012Close Date:  
10-18-2012

1. Research Objectives Purpose The National Human Genome Research Institute (NHGRI) solicits Small Business Innovation Research (SBIR [R43/R44]) grant applications to demonstrate feasibility and develop novel technologies that will enable extremely low-cost, high quality DNA sequencing. This FOA continues a program that began in 2004, when the cost to produce a high quality draft mammal ...
